

Social vs Co-Working Membership Tiers

At our Bitcoin co-working & education hub, event space, and social club, we provide flexible, community-driven membership options to meet the diverse needs of Bitcoiners. Whether you're looking for occasional access to events and co-working spaces or a dedicated environment for work and collaboration, our **Social Membership** and **Co-Working Membership** tiers offer unique benefits that align with your goals.

Building Access

All members, regardless of their tier, receive their own individual building access code. This ensures accountability and allows us to monitor who enters the building and when.

- **Social Membership:** Access is limited to after 4 PM on weekdays and all day on weekends.
- **Co-Working Membership:** Enjoy 24/7 access for maximum flexibility.

Guest Pass Policy

We encourage members to share The Space with their network but ask that guest privileges be used responsibly:

- **Social Membership:** Bring up to 5 guests per month.
- **Co-Working Membership:** Unlimited guest passes, provided they are used responsibly. Abuse will not be tolerated—we'll notice if someone is freeloading every day!

Note: Members must accompany their guests at all times while in the building.

Respecting Membership Tiers

We do not actively police membership tiers but ask all members to respect the guidelines associated with their chosen tier. Abuse of membership benefits will not be tolerated and may result in revocation of access.

A Dynamic, Member-Driven Space

Our membership tiers and benefits are subject to change as we grow. Member input is welcomed, and we encourage suggestions to make The Space even better for everyone.

Which Tier is Right for You?

- Choose **Social Membership** if you want to stay connected, attend events, and use co-working spaces occasionally. It's great for those seeking to balance participation in the local bitcoin community with flexibility.
- Choose **Co-Working Membership** if you need a dedicated workspace, 24/7 access, quiet working hours, and more collaboration opportunities. It's ideal for bitcoin professionals looking for a productive environment.
